27 years of products & innovations

Our products are designed with one goal in mind—to keep homes, families and our planet safer.

COMMITTED TO REDUCING CHEMICALS

Very few of the world's 85,000-plus chemicals have been tested for their impact on human health. Over 200 chemicals have been found in the cord blood of newborns, and typical adults have more than 700 man-made chemicals in their bodies. This can all add up to what's known as Body Burden. It's not good for you or your family, which is why Norwex® offers proven microfiber, household and personal care solutions to keep harmful chemicals out of your home and off your body.

DEDICATED TO SUSTAINABILITY

Norwex creates quality products that help save the earth and your budget by reducing plastic and single-use disposables like paper towels, wipes, dryer sheets and more. Plus, many of our microfiber products contain recycled microfiber yarn. And we're packaging more household products in OceanBound Plastic, helping to reclaim plastic headed for the sea.

Healthier skin, hair and body start with ultra-clean formulas powered by natural, Nordic ingredients. And the healthier you are, the younger you look and feel.

Our technologically advanced microfiber has redefined what it means to be clean.

microfiber that makes a difference

Chemical-based cleaners can sanitize or disinfect, but they can also leave behind harmful chemical residue. Norwex® Microfiber can remove up to 99% of bacteria from a surface using only water, when following proper care and use instructions.

Thick, absorbent and super-durable, our microfiber handles everything your family can dish out. Used dry it catches the smallest dust particles to create a longer-lasting clean. Used wet it lifts and traps even stuck-on messes.

Using the EnviroCloth and water can eliminate 53 chemicals that may be in your home.*

EnviroCloth® BacLock® OEKO-TEX®

No need for chemical-laden, all-purpose cleaners or wasteful paper towels; it's safer for your family and better for your budget and the environment! Use wet or dry.

setting the standard for microfiber performance

MECHANICAL VERSUS CHEMICAL CLEANING

Instead of relying on chemicals, Norwex® harnesses the physical power of our microfiber and water alone to easily and thoroughly clean any surface. You get an immaculate clean while radically reducing your use of harmful chemicals that can affect your family's health.

OUR EXCLUSIVE BACLOCK® SELF-PURIFIES

Look for the logo.  BacLock®. Norwex Microfiber products containing BacLock** self-purify within 24 hours when wet! The BacLock micro silver antibacterial agent embedded in the cloth self-cleanses it—drastically reducing mold, fungi and bacterial odor—so the cloth is ready to use again and again, allowing you to launder it less often. Between washes, simply rinse thoroughly and hang to dry.

SAVES TIME AND MONEY AND HELPS THE EARTH

With Norwex Microfiber, you can eliminate not only harmful, chemical-laden cleansers, but all those single-use disposables like paper towels, floor pads and wipes, too. That's great for the earth and can save you time as well as about \$600 a year. Look for this symbol  RECYCLED denoting microfiber products made from 50% – 91% recycled microfiber yarn. These products have saved more than 12 million bottles from the landfill. And with no more lugging around totes or switching from cleanser to cleanser for every project, you'll save even more time.

STANDARD 100 BY OEKO-TEX®

When you see **OEKO-TEX®** you can be sure that every component—from yarn and dyes to trim and label—has been STANDARD 100 by OEKO-TEX® certified free from harmful substances.

All Norwex Microfiber products carry a two-year warranty. For details please visit: norwex.biz/en_US/norwex-guarantee.

* When following proper care and use instructions, page 73.

** **BacLock**. This graphic is noted throughout the catalog to differentiate those products that contain BacLock, an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odor, mold and mildew growth within the product.

IMPORTANT NOTE: Some surfaces and finishes can be easily damaged. Please always test Norwex Microfiber on an inconspicuous spot first. Do not use microfiber (except Norwex Optic Scarf and Tech Cleaning Cloth) on anti-glare surfaces.

Removes up to 99% of bacteria from surfaces—using only water.*

When wet, BacLock**, our antibacterial agent in the cloth, self-purifies it, keeping it fresher longer.

Our EnviroCloth® is made with fiber that has a maximum length of more than 10 million feet for more effective cleaning power!

Loosens and lifts the smallest, most stubborn dirt, grease and debris when used wet—no harmful chemicals required.

Creates an electrostatic charge that picks up and holds everything when used dry to dust.

A mere 1/200th the thickness of a human hair, our microfiber is a superior blend of extra-dense, super-fine fibers for superior absorption and effectiveness.

Absorbs up to 7 times its weight in water.

the fab five

Our Safe Haven 5 Set has 3 of our top-selling microfiber cloths, Cleaning Paste and your choice of laundry detergent. Together they reduce over 80 chemicals in your home.*

why envirocloth®

Our super-dense EnviroCloth cleans mechanically, picking up the smallest particles on its own, so you won't need any harmful chemicals. It removes dirt, grime and up to 99% of bacteria from surfaces with water alone when following proper care and use instructions, and then our BacLock® agent goes to work within the cloth to self-purify it within 24 hours.

why dusting mitt

Dust can contain up to 45 chemicals, including phthalates and flame retardants, and stir up allergies and asthma. Unlike waxy cleaners that leave a residue which attracts *more* dust, or regular cloths that just sweep dust into the air, our Dusting Mitt grabs dust and won't let go.

how to care for your microfiber

- Machine washing and drying are recommended prior to initial use. Rinse slightly dirty microfiber cloths under warm, running water and hang to dry* or drop into the dryer.
- Launder microfiber cloths separately or with other lint-free laundry. Dry completely.
- For best results, use a laundry detergent that's free from fillers, like a Norwex laundry detergent.
- Do not use bleach. Do not use fabric softeners or dryer sheets when laundering microfiber; they coat the fibers and reduce their ability to clean effectively.
- For an even deeper clean, use Microfiber Cleaner Laundry Booster.
- Do not use microfiber (except Optic Scarf and Tech Cleaning Cloth) on anti-glare surfaces.

*When air drying, always hang to dry, as leaving darker colors of damp microfiber on countertops may stain the surface.
