"FAC jewellery steals the show! I went from being an athlete with minimal interest in jewellery to my new title of Bling Queen. I love meeting new people, I love seeing people's styles change because of our jewellery and the money I earn from my Fifth Avenue Collection business isn't too bad either!"

"My FAC business gives me a real sense of community and I enjoy the way it connects women who are looking for ways to express their individuality with jewellery. Wearing our designs makes me feel opulent and feminine. It's not just about the gorgeous jewellery, it's also about how it makes the person feel when they are wearing it."
