Mealtime is where we listen, we learn, we argue, we laugh. It's where we let go of what was bad about the day and celebrate what was good. It's where, for a brief moment in our busy days, **we come together.**

We believe that people with a full plate should be free to enjoy mealtime with their loved ones. And with a little kitchen confidence, we can get more out of the time we spend preparing and sharing meals.

This season, we're bringing home fresh flavors and cooking techniques. We'll share how to prep ingredients faster, add big flavor without extra work, and techniques the pros use—so you can cook, eat, and enjoy better than ever before.

you got this!

“Over the years, food trends have evolved and mealtimes have migrated from a dining table to a kitchen island for some, but the power of sharing time together over a meal remains the same. We want to help others make the most of every opportunity to enjoy meals together.”

Doris Christopher
Founder & Chairman

pampered|chef.

Pampered Chef stones have been a staple in kitchens for decades, so we know a thing or two about doing it right. Many happy cooks rely on our glazed and unglazed stoneware for a natural, no-fuss way to make just about everything.

Unglazed Stoneware

- **Made With StoneFusion Material:** Unglazed stoneware is made with our StoneFusion material, making it our strongest and most durable stoneware ever.
- **Crispier Crusts:** You can preheat stones for up to 30 minutes. And when you're finished baking, you can use metal utensils like a pizza cutter.
- **Dishwasher-Safe:** Pop them in the dishwasher or rinse with warm water. Each piece comes with a scraper to remove residue.
- **Made in the USA:** Made from 100% natural materials.
- **Natural Nonstick Finish:** Your stone develops seasoning—a nonstick finish—as you use it.
- **Won't Retain Flavors:** Today's cookies won't ever taste like last night's dinner.
- **Patterned Bottoms:** Each piece has a ribbon pattern, so you can easily tell them apart from the original unglazed stones.
- **Where to Cook:** Broiler-safe to 550°F (287°C), oven-safe to 500°F (260°C).
