## What is a Scentsy wax warmer?

Call it wickless, flameless or “the hottest thing in candles” — a throwback Scentsy slogan from the early days — the authentic Scentsy Warmer is the original wax warmer, filling your space with candle-like ambiance and beautiful fragrance without the typical worries that come with a candle’s steady flame.

Designed with safety, beauty and style in mind, the Scentsy Warmer uses a low-watt light bulb or heating element to slowly melt specially formulated wax. With no flame, smoke or soot, it’s a safe way to enjoy Scentsy fragrance at home, work or on the go.

## The Scentsy Difference

Authentic Scentsy Warmers are unlike any other. Handcrafted by skilled artisans, our warmers are beautifully designed and meticulously finished with details that make each warmer special. They're every bit as stylish as they are functional.

Each season, we create new warmer designs in a range of sizes, colors and finishes to keep surprising customers with timeless details and plenty of trending features to keep things fresh.

Want a distinct, aged look that makes your warmer feel like a found treasure? Choose the crackle glaze. For soft, filtered light, pick a glow warmer. Or for one-of-a-kind style, go with hand-painted or a reactive-glaze finish. There are dozens of styles to shop, from high-gloss to matte, brightly colored to neutral — there is even a selection of warmers that feature fun sayings to express yourself.

For more customization, you can also swap out the light bulb with a colored option to suit your style or match your mood!

## What does Scentsy sell?

Scentsy now offers a large variety of "scent delivery" systems like our Scentsy Diffusers which fills the air with world-class fragrant all-natural and essential Scentsy Oils and our Fan Diffusers which use our innovative Scentsy Pods to release fragrance into your home, office, or vehicle. Q: What makes Scentsy so much safer than other candles or tarts?

A: Scentsy is wickless, flameless, smokeless, & leadless!

Q: What's in a Scentsy Bar?

A: We use a custom, high-quality paraffin wax blend and fragrance oils, both synthetic and naturally derived, to make the best, longest-lasting bar.

Q: How long does a Scentsy Bar last?

A: There are many factors to consider here, like a scent's ingredients, your preferred fragrance intensity and the environment where you warm your favorite bar. But know this: We design Scentsy Bar fragrances to last, with the utmost quality standards. For more information:

Q: When melted, how hot does Scentsy Wax get?

A: Not hot at all, just above body temperature.

Q: Do I need to attend a party to buy more Scentsy Bars later:

A: No, you may order anytime by visiting my website:

A: Times will vary seasonally, but your order should arrive about 2 weeks after we close this party.

Q: I think that I might want to join as an Independent Scentsy Consultant, how do I do that?

A: This is great news! Use this party as a try before you buy! We can “flip” the party so that you can try to earn your starter kit. Let's chat!

## Scentsy Precautions

Certain fragrances may trigger allergies or asthma in some people. Please read the fragrance descriptions carefully before smelling testers if you have had a reaction to certain fragrances in the past. Some common fragrances which may cause sensitivities are cinnamon, eucalyptus, and pine.

Even though Scentsy warmers melt our wax at such a low temperature, certain precautions should always be taken when using any electrical device. Be sure to read the safety instructions and handling information that comes with your Scentsy warmer before use.

Please do not leave wax in  
your car, or anywhere it can  
get warm. It **WILL MELT!**
